

# Broadband Equipment Conference

Location	City	Date and Time
Center for Rural Development	Somerset Kentucky	August 24-25 2010

The Kentucky Wireless Interoperability Executive Committee (KWIEC) in concert with the Public Safety Working Group is evaluating potential technological solutions to augment Kentucky's existing wireless Mobile Data Network.

Vendors wishing to participate in the conference should complete this form and submit it to the Chairman of the Public Safety Working Group for review. Due to the limited time and narrow focus of this event, vendor selection will occur on a first come basis for those that wish to demonstrate equipment related to wireless broadband. A confirmation with location and briefing time will be returned to the company representative.

*Disclaimer: This conference is being conducted to aid the Public Safety Working Group and the Kentucky Wireless Interoperability Executive Committee in evaluating potential solutions to its growing wireless mobile broadband needs. No evaluator is empowered to or will commit the Commonwealth into any contract.*

## Briefing

- ☐ I will need a room to brief. No equipment will be demonstrated. (Max of 1 hour)
- ☐ I will need a room to brief and will demonstrate equipment as a part of the briefing. (Max of 2 hours)
